Freeway

Linda Perry

Can you see me
In the garden
Watering flowers all night longTaking care of what you neglected
And I do it with a happy songCan you feel your guardian angel
Guiding you so patiently
And you wonder if you're in heaven
'cause you move so gracefullyWelcome tomorrow
Where we flow us gentlyDidn't we know
Didn't we feel it
The time to seems to stop
Outside our windowAnd we ride, down the freeway
Hoping to express our religion
To be free
Of everythingWith my friends, sitting around drinking
Talking about how life is much too long
How some days everything's just so right
And the next day everything just seems so wrongLaughing while complaining
But having a good time
It didn't really matterWelcome tomorrow
Where we flow us gentlyAt two o'clock in the morning
The lights go on
It's time for us to goAnd the last thing I can remember,
Was an angel guiding us right through the door
Yeah, yeahLaughing while complaining
But having a good time
It didn't really matter
It really doesn't matterWelcome tomorrow
Where we flow us gentlyDidn't we know
Didn't we feel it
The time to seems to stop
Outside our windowAnd we ride, down the freeway
Hoping to express our religionDidn't we know
Didn't we feel it
The time to seems to stop
Outside our windowAnd we run down the freeway
Didn't we know
Didn't we feel it
How time it seems to stop
Outside our windowAnd we run, down the freeway

Hoping to express our religion
To be free, of everything
Of everything, yeah
