Soul's On Fire

Johnny & The MoTones

Music rings through my mind
Winding further, across that line
People dance and sing along
They all know the ageless songHelp them all toward common strength
Mark the path along the way
Leads on to wider roads
Take in those that strayed(Chorus)
Keep it light
Oh my soul's on fire
Keep it light
Oh my soul's on firePaint the house, it's fallin' down
House with cracks, that make no sound
Younger eyes hold big surprise
Calling home, from out of townGet your magazine with your gasoline
Simple postcards show the way
Shake it up before you go
And I know, you'll make the day(Chorus)
Keep it light
Oh my soul's on fire
Keep it light
Oh my soul's on fire(Bridge)
Rollin' down the road I'm rollin' now
I'm rollin' away
I got my mind, I got sights set on you again
And everything fades.InstrumentalThe harbor lights break the setting sun
Now it starts you feel the chill
Place my body on that northern hill
Leave it lay there, may it be still(Chorus)
Keep it light
Oh my soul's on fire
Keep it light
Oh my soul's on fireRepeat chorus several times.
