When You Touch My Hand

Frumious Bandersnatch

Lyrics:bosson, music: bosson
You're close to me, still so far away
Wanna take my hand, but something's in the way
Sometimes I get the feeling that you don't care
I know you've got it tough, but it's just not fair
What about me...you see...
Chorus:
When you touch my hand
I wanna fly to wonderland, with you
When you look at me
With the cutest smile man can see your dignity

The show goes on, I am used to the scene
It's the same old song, love can be so mean
Honey stop playing the silly game
I know you've got another but he'll never be
What I'll be...for you...
Chorus
Come on baby why can't you see
We could run this thing together just you and me
I beg you please I'm down on my knees
One day you will understand how much
You mean to me
Chorus
