Wish It All Away

Ivy

Come a little closer and I will stay with you
Let me turn your collar up, up to face the moon
Come a little closer, may I fight with you
I can try to make you see there's nothing you can do
Breathe the scent of a world gone sour
Turn your head as the last spring flower dies nowClose your eyes now
And wish it all away
Wish it all awayMay I come and fight with you?
I can try to make you see it's not in what you do
Breathe the scent of a world gone sour
Turn your head as the last spring flower dies nowClose your eyes now
And wish it all away
Wish it all awayBreathe the scent of a world gone sour
Climb to the top of a windy tower in your mind
Your mindClose your eyes now
And wish it all away
Wish it all away
