

# Wish It All Away

Ivy

Come a little closer and I will stay with you  
Let me turn your collar up, up to face the moon  
Come a little closer, may I fight with you  
I can try to make you see there's nothing you can do  
Breathe the scent of a world gone sour  
Turn your head as the last spring flower dies nowClose your eyes now  
And wish it all away  
Wish it all awayMay I come and fight with you?  
I can try to make you see it's not in what you do  
Breathe the scent of a world gone sour  
Turn your head as the last spring flower dies nowClose your eyes now  
And wish it all away  
Wish it all awayBreathe the scent of a world gone sour  
Climb to the top of a windy tower in your mind  
Your mindClose your eyes now  
And wish it all away  
Wish it all away
