

# Bad Love

[Cher](#)

Looking for some bad love in the night  
I'm feeling such a hot street, I could fight  
Need to have some bad, bad love to make it right I used to be a good girl but no more  
Im ready, now its time I learn to score  
Guess I know that bad love is my appetite Wanna find some hotshot on the street  
Well make the fire and therell be the heat  
Knew I wanna burn my candle at the dance I wanna meet a bad boy in the night  
Were gonna make some bad love, wrong or right  
Ooh, I know that bad love is our appetite Ooh baby, baby, Im ready  
Ooh baby, give it to me  
Am I ever gonna know the view  
And that itll show me the right way  
You got me bangin on the floor  
Now what more do you want from me? Bad boy in the night  
Were gonna learn some new tricks, wrong or right  
Need to have some bad, bad love to make it right Were gonna make some hot love on the street  
Well make the fire then well feel the heat  
Ooh, Im gonna bad, bad, la la lala  
Bad, bad, la la lala, bad love gets us through the night Ooh baby, baby, Im ready  
Ooh baby, give it to me  
Am I ever gonna know the view  
And that itll show me the right way  
You got me bangin on the floor  
Now what more do you want from me? Bad love in the night  
Were gonna make some new tricks, wrong or right  
All I know that bad love is our appetite Were gonna make some hot love on the street  
Well make the fire then well feel the heat  
Ooh, I know that bad, bad la la lala  
Bad, bad la la lala, bad love is my appetite Looking for some bad love in the night  
I'm feeling such a hot street, I could fight  
Need to have some bad, bad love to make it right I used to be a good girl but no more  
Im ready, now its time I learn to score  
Guess I know that bad love is my appetite Im gonna find some hot love on the street  
Ill make the fire then feel the heat  
Ooh, Im gonna burn my candle at the dance I wanna meet a bad boy in the night  
Were gonna make some bad love, wrong or right  
Ooh, I know that
