

Since I Found You

Christian Bautista

I think of you in everything that i do
To be with you what ever it takes i'll do
Cause you my love, you all my heart desires
You've lighten up my life forever i'm alive Since i found you my world seems so brand new
You've show me the love i never knew
Your presence is what my whole life through
Since i found you my life begin so new
Now who needs a dream when there is you
For all of my dreams came true
Since i found you Your love shines bright
Through all the corners of my heart
Maybe you are my dearest heart
I give you all i have my heart, my soul, my life
My destiny is you
Forever true... i'm so in love with you Since i found you my world seems so brand new
You've show me the love i never knew
Your presence is what my whole life through
Since i found you my life begin so new
Now who needs a dream when there is you
For all of my dreams came true
Since i found you
