Rinse & Repeat (feat. Kah-Lo)

Riton

Time to make the club go up
Time to shut this place down
This is not how I woke up
But it's how I look now
If you leave with me
We'll be on till mourn'
Then we Rinse & Repeat
And it just goes on...Time to make the club go up
Time to shut this place down
This is not how I woke up
But it's how I look now
If you leave with me
We'll be on till mourn'
Then we Rinse & Repeat
And it just goes on...And it just goes on...Time to make the club go up
Time to shut this place down
This is not how I woke up
But it's how I look now
If you leave with me
We'll be on till mourn'
Then we Rinse & Repeat
And it just goes on...And it just goes on...
And it just goes on...
And it just goes on...
And it just goes on...
And it just goes on...Got the joint lit way up
It's time to get down
So loud that my ears pop
We can't turn back now
What is the turndown
To the club we go
So what the sun comes up?
And it just goes onAnd it just goes on...
And it just goes on...
Then we Rinse & Repeat
And it just goes on...Time to make the club go up
Time to shut this place down
This is not how I woke up
But it's how I look now

If you leave with me
We'll be on till mourn'
Then we Rinse & Repeat
And it just goes on...And it just goes on...
And it just goes on...
Then we Rinse & Repeat
And it just goes on...
