

# The Wormhole

Talib Kweli

[Intro]

Oh you niggas wanna get deep?  
Niggas wanna kick knowledge?  
Y'all niggas ain't deep man, y'all niggas lost me  
Soon as you steady tryna tell me which rappers in the fuckin Illuminati  
Then I'm like, show me the proof right?  
Niggas start talking about the anti-Christ and aliens and shit  
Save the ghost stories for the kids nigga, I'm a grown ass man  
Let's go, let's go[Verse]  
You can lead a man to a drink  
But you can't make him take a sip  
You can lead a man to a link  
But that don't mean he gonn' click  
What's this? Y'all ain't really on no deep shit  
I peaked it, scared of a motherfuckin' secret  
Society and only been with people you agree with  
You scared of a challenge scared of death  
Only thing worse is your silence  
Illuminatis enlightened, the hour seein' the darkness  
Masonic roots still survive from the book of dearly departed  
Egyptologist and scholars  
Symbolologists at the college  
Will all acknowledge that ancient Kemet is where it started  
Way farther back than the knights  
Or the Rite of the Scottish  
You need to wake up, no new Bugatti  
My enemy tryna stop me but I don't stand a chance  
If I can't identify 'em properly  
Illuminati as we know it started in Bavaria  
Years before it landed on the shores of America  
The mission: abolishment of government and religion  
They were enemys of the state  
And they was hated by the Christians  
They was Poets, they was Scholars  
Early Illuminati was sorta like the students  
In Victor Hugo's Les Miserables  
The modern day politicians would diss 'em  
Turning them into martyrs  
This inturn inspired the founding fathers

The vast majority Masons who were the subject of the Illuminati  
Found this fascination the order was inspiration  
And ain't no disrespect to the masons  
But you try to keep secrets then it leads to speculation  
Only those in league with Satan need to hide information  
That's how you catch a ride to your final destination  
Where the proof, show 'em proof put it all on the table  
When the facts are intact ain't no need for a fable  
Good versus evil is primitive  
Real life's more complex, what's your context?  
They put the symbols on the dollar bill, the monument, the obelisk  
They honouring Columbia the children of the colonists  
You can trace it back to the root trace it back again  
It's really just another case of stealin' from the African  
Racism and vanity justify the sale of flesh  
You property like cattle or produce but are you still as fresh?  
Population control is real, you know the deal  
But still perpetuate the cycle of violence  
We known to hold the steel  
No, I don't need no fuckin' chorus  
Use to read so many books  
Thought I was a hoarder down at Borders  
Like Behold the Pale Horse or The New World Order  
But you really don't know what you reading  
If you really don't know the author  
A lot of Satan worship is just government propaganda  
Unsubstantiated lies with no proof a bunch of slander  
Of course there are forces against you and that's a fact  
Don't get caught in the distraction, it's bigger than any rapper  
The truly oppressed ain't got the luxury of inventing a monster  
The devil incarnate is much realer than the devil in concert  
What they doing so sinister  
Worse than any blood sacrifice you can imagine  
Iller than any cinema  
The Federal Reserve, the World Bank and the IMF  
Helping the poor get poorer you in debt until your dying breath  
Food, vaccines, humanitarian aid  
They want control of the region, they really tryna get paid  
Obey thy consumer make a product out of man  
Where's the conspiracy? it's always been the plan  
Y'all niggas scared of one world currency  
But still paying your taxes  
It ain't the Illuminati that worry me  
Lack of spiritual energy, suicidal tendencies  
Unwitting soldiers in the armies of the enemy

I'm leaking information so follow me down the wormhole  
Same reason that they called Bradley Manning a turncoat[Outro]  
(Man, we supposed to be brothas!)  
Oh what you tryna get smart?  
Nigga you tryna kick some knowledge?  
Nigga fuck that give me your muthafuckin jewelry nigga  
Take that shit off  
Oh you got a pager too huh?  
You a balla huh? You a balla huh?  
Gimme that muthafuckin' shit  
Better me than the muthafuckin cops nigga
