

# Remain Yer Strange

## Superdrag

She once in a while  
Does everything all for denial  
I don't understand  
Isn't it good? Hope in your hand And I don't wanna hear about how  
Everything is different now  
Are you ever going to change?  
I hope you always remain Remain yer strange  
Remain yer strange She's sitting at home  
Says all she can over the phone  
I don't wanna go  
But I can't do that if she don't say no And I don't wanna hear about how  
Everything is different now  
Are you ever going to change?  
I hope you always remain Remain yer strange  
Remain yer strange And I won't ever go  
I found you once you know  
When all is said and done  
Girl, you're the only one Remain yer strange  
Remain yer strange Remain yer strange  
Remain yer strange
