

# Silence

## Dry Cell

I believe that I'm hangin' by a string  
And I'm feeling so small in a world full of big things  
Undone and I'm ready to explode on the thing I don't know  
And I just wanna let goUnderstand that the way that I am  
Is a product of a scam that you pull on the last man  
Undone and I'm ready to explode on the things  
I don't know and I just wanna let goSurprise, my eyes were open  
Don't suffocate what's broken  
Are you ever done? Are you ever free?  
Silence makes me numb without youYou believe that you're changing everything  
And you're feeling so tall that you can even see me  
Undone and I'm ready to explode on the things  
I don't know and I just wanna let goUnderstand that the way that I am  
Is a product of a way that you wanna play my hand  
Undone and I'm ready to explode on the things  
I don't knowSurprise, my eyes were open  
Don't suffocate what's broken  
Are you ever done? Are you ever free?  
Silence makes me numb without you  
How can this go on? Take it all from me  
Silence makes me numb without youI never meant to cause you pain  
Fighting aggravation causing suffocation  
Never meant to cause you pain  
Fighting aggravation causing suffocation  
I won't let youAre you ever done? Are you ever free?  
Silence makes me numb without you  
How can this go on? Take it all from me  
Silence makes me numb without youAre you ever done? Are you ever free?  
Silence makes me numb without you  
How can this go on? Take it all from me  
Silence makes me numb without you  
Without you, without you, without you
