I Found Forever

Fighting Instinct

I thought my world was complete
I was living a life made on shaky ground
I was blinded, so I couldnt see
I couldnt stand, I thought I was drowningI thought I was sinking
I thought I was dyingI found forever in your arms
I dont decide where I need to be
And I found forever in your arms
I dont decide where I feel freeSome nights I would lie all alone
Dreaming of you and the way things had been
You know I had no chance on my own
Now I can make it with you next to meNow we are together
Now I found foreverI found forever in your arms
I dont decide where I need to be
And I found forever in your arms
I dont decide where I feel freeSomehow you came
And took all my pain away
I know that I cant
Repay all the love you gave
All the love that you gaveI found forever in your arms
I dont decide where I need to be
And I found forever in your arms
I dont decide where I feel freeI found, I found forever
I found forever in your arms
I found, I found forever
I dont decide where I feel free
Where I feel free
