

# Think About It Darlin'

[Jerry Lee Lewis](#)

Search the corners of your precious heart  
And if you find something there  
And there's anyway to call it love  
And we still got a prayer I've got more love for you, sweetheart  
Than you'll ever find again  
So before you close that door on me  
Think about it, darlin' Think about it darlin'  
Give yourself a little time  
Consider all you mean to me  
And you might change your mind Mmm, I haven't been the kind of man  
You wanted me to be  
But if you'll stay, darlin', I'll try to change  
Don't give up on Jerry Lee Lord, things were good between us once  
I know they could be again  
And there's nothing good about a goodbye  
So think about it darlin' There's nothing good about goodbye  
So think about it darlin'  
Think about it
