

That Feeling

Alabama

Ive made some decisions
Never not the best
Against my better judgment
I must confess I went astray so many ways
So my dreams fall apart
And came a day, Im glad to say
I followed my heart That feeling, the one Im feeling now
Oh, that feeling, that turned me all around
That feeling, oh, what love can do
That feeling, that never lets me down Oh, that feeling, that always come around
I never need another
Its gonna last my whole life through
That feeling, Im feeling for you Looking in the mirror
Reflecting on the past
Memories or misery
Thats all fading fast These eyes over my shoulder
Oh, they made me realize
Ive made the right decision
The day I recognized That feeling, the one Im feeling now
Oh, that feeling, that turned me all around
That feeling, oh, what love can do
That feeling, that never lets me down Oh, that feeling, that always come around
I never need another
Its gonna last my whole life through
That feeling, Im feeling for you I never need another
Its gonna last my whole life through
That feeling, Im feeling for you
