Bad News

Human Resources

Settle down for a while my friend, everything will be alright.
God, I hope that it ends well, for all of us involved.
Don't point your finger at me, I don't have the answers

But you're bad news, you are
and I'm bad news, they say
Let's be bad news, together
or choose to obey

and oh, you turn me inside out
I promise not to leave you, no
I've lost my head again

Close my eyes for a while again, everything will be alright.
God, I hope that it ends well, for all of us involved.
Don't point your finger at me, I don't have the answers

But you're bad news, you are
and I'm bad news, they say
Let's be bad news, together
or choose to obey

and oh, you turn me inside out
I promise not to leave you, no
I've lost my head again
