## **Comes To Tongue**

## **Deadstar Assembly**

You said I'm sugar You'll taste it But it's anotherWhen you're next to me I see through you feed I'm your selfish thing Keep on pulling strings And I'll be right thereYou want things But their so past you You see three When there's two You want me When it comes to... Tongue, tongue, come, tongueYou feel Manipulated But that is not enough Cause you're so hated
