Haight St

Anberlin

Lets you and me make our way just beyond haight st
Lets leave this life behind forgetting all they say
The time we had is time well borrowed
Stay out all night
Forget tomorrowLets you and me
Make a night of it
Old enough to know
But too young to careLets you and me
Make a night of it
Old enough to know
But too young to careThe review mirror shows the times we're abandoning
Lets leave this life behind forgetting all they say
The time we had is time well borrowed
Stay out all night
Forget tomorrowLets you and me
Make a night of it
Old enough to know
But too young to careLets you and me
Make a night of it
Old enough to know
But too young to care[Who cares?] if there's trouble tonight
[Who cares?] cause the kids are alright
Tonight we'll take this town
Cause we're old enough to know
But too young to careLets you and me
Make a night of it
Old enough to know
But too young to careLets you and me
Make a night of it
Old enough to know
But too young to care[Who cares?] if there's trouble tonight
[Who cares?] cause the kids are alright
Tonight we'll take this town
Cause we're old enough to know
But too young to care
