

Hangover Tonight

Gary Allan

Well it might be me, might be the whiskey
We might be loving, we might be tipsy
Tomorrow morning might hurt real bad
So lets make tonight last We've been hanging around this place (hanging around)
Hanging on to the hope and the way this whiskey tastes (whiskey tastes)
Waiting, Wising that you'd say
"Hell with being sober, I want a hangover tonight"
Feelings getting stronger (stronger), how can this be wrong girl (wrong girl)
All night long, girl, I want a hangover tonight. Well I might make a move and it might be risky
I'll take one more shot if you'll take one with me
Get a little closer in a cab outside,
Lets take a ride (ride with me baby) We've been hanging around this place (hanging around)
Hanging on to the hope and the way this whiskey tastes (oh yeah)
Waiting, Wising that you'd say
"Hell with being sober, I want a hangover tonight" (hangover, hangover)
Feelings getting stronger (stronger), how can this be wrong girl
All night long, girl, I want a hangover tonight
Feeling's getting stronger (stronger), how can this be wrong girl
All night long, girl, I want a hangover tonight (hangover) Can't get enough of you (Enough of you, enough of
you)
I want too much of you (much of you, much of you)
I wanna feel you closer, Yeah, I want a hangover, That hangover We've been hanging around this place (hanging
around)
Hanging on to the hope and the way this whiskey tastes (whiskey tastes)
Waiting, Wising that you'd say
"Hell with being sober, I want a hangover tonight"
Feeling's getting stronger (stronger), how can this be wrong girl
All night long, girl, I want a hangover tonight.
Feeling's getting stronger, how can this be wrong girl
All night long, girl, I want a hangover tonight (I wanna feel you closer) I want a hangover tonight
I want a hangover tonight
I want too much of you
The whiskey's getting stronger, girl Oh I can't get enough of you
