

# Don't Waste My Time

[John Mayall](#)

Well, tell me woman who you're with tonight  
If you're on your own then that's alright  
But if you don't want me with you  
Don't waste my time with your jive In this big city I'm high and dry  
I just can't make out though I try  
So if you don't want me with you  
Don't waste my time with your jive Do you have a place where we could go?  
Or does your mother want you home?  
Don't waste my time I ain't got long  
'Cause it's hard to find a woman  
When you know, you'll soon be gone So break the rules and tell me yes  
I'll prove to you that love is best  
But if you don't want me with you  
Don't waste my time with your jive
