

Otis

Houndmouth

I need some love from a Georgia man
Bang it out in Dawson
Get him then I lost him
Part time preacher in the traveling band
That sugar on his shoulder Oh my otis won't you come back down
On my way but I need a little time
Shook my soul and saved my life
On my way but I need a little time Sing me up then break my heart
Those cigarettes and coffee
Look at the man he's got me
Big ole' Ranch keeps us apart
And that Tramp from California Oh my otis won't you come back down
On my way but I need a little time
Shook my soul and saved my life
On my way but I need a little time Sugar in the morning gotta get on up
Listen to the sound and ya gotta get on up Oh my otis won't you come back down
On my way but I need a little time
You shook my soul and you saved my life
I'm on my way but I need a little time Oh my otis won't you come back down
