Your Love

Nancy LaMott

YOUR LOVE
Sung by: Nancy LaMott,
Composed by: Christopher Marlowe
From the Album "What's Good About Goodbye?"Sometimes when I am sitting all alone
I think of things that I have done
And start to wonder if there's one thing --
means more than others I have known
And suddenly it's clear to me
Without your love where would I be...Refrain:
Your love has kept me going
Through good and bad times
It's kept me growing
Like a steady flame.
Your love has kept on burning
Through sweet and sad times
I'll keep returning
to the magic of your love.Through the years my dreams
May come and go
For fortune is a fleeting thing
And no one knows
What time may bring
But through the highs and lows of it
I have known
That there's one thing of which I'm sure -
The one thing I've been living for...Your love has kept me going
Through good and bad times
It's kept me growing
Like a steady flame.
Your love has kept on burning
Through sweet and sad times
I'll keep returning
to the magic of your love.Your love has kept me going
Through good and bad times
It's kept me growing
Like a steady flame.
Your love has kept on burning
Through sweet and sad times
I'll keep returning
to the magic of your love.Through good and bad times

It's kept me growing
Like a steady flame.
Your love has kept on burning
Through sweet and sad times
I'll keep returning
to the magic of your love.I'll keep returning
to the magic of your love.
