Great Big World

T.U.G.G.

Gauntlets
Throw one by one
See how they run
When the check doesn't clear
And it's time to pay the bill
Some are gonna ride it out
Some can't and they never will'Cause it's a great big world
Calling you to take a ride
And it's a great big world
Singin' come and see and come inside
Oh yea, a great big world
Reminding you you're not alone
So hold on this great big world
We only get to rent we never get to ownInches fill a yard stick
Our feet slowly walk a mile
Make one move then another
And then you try to live a while
Keep your head and you might make it
But that ain't no guarantee
'Cause it takes debt and obligation
To fly around so freeAnd it's a great big world
Calling you to take a ride
And it's a great big world
Singin' come and see and come inside
Oh yea a great big world
Reminding you you're not alone
So hold on this great big world
We only get to rent we never get to ownWhatcha gonna do first?
And where will you make your mark?
How are you goin' to get there?
And can you find a place to park?
Seasons coming slowly
But still they always kinda old
And it feel like just a seconds
And then suddenly you're doneAnd it's a great big world
Reminding you you're not alone
And it's a great big world
We only get to rent we never get to own
And ya it's a great big world

Calling you to take a ride
And it's a great big world
Singing come and see and come insideOh yea it's a great big world
Reminding you you're not alone
So hold on this great big world
We only get to rent we never got to own
