

# This Little Girl

## Cady Groves

You got your keys, but where you going?  
The third degree just isn't working.  
'Cause you walked out without asking me to go,  
And if I followed you home, would you be alone? I checked your phone, 'cause it was beeping  
Are you alone? I know you're creepin'  
'Cause you walked out without asking me to go,  
But if I followed you home, I hope you're aloneBridge:  
I'm three steps from the edge  
Whoa-oh  
Don't push me over it  
Don't you know, don't you knowChorus:  
Every girl is capable of murder if you hurt her  
Watch out you, don't push me any further, any further  
You're not the only one walkin' 'round with a loaded gun.  
This little girl is capable of murder 'cause you hurt herMy hands are clean, not yet a killer  
Ain't I your queen? And did you tell her?  
'Cause you broke down all my shoulda known betters  
And I followed you home, throwing sticks and stonesBridge:  
I'm two steps from the edge  
Whoa-oh  
Don't push me over it  
Don't you know, don't you knowChorus:  
Every girl is capable of murder if you hurt her  
Watch out you, don't push me any further, any further  
You're not the only one walkin' 'round with a loaded gun  
This little girl is capable of murder 'cause you hurt herDon't you know you should never treat a girl like that?  
Got a good alibi, and my bag's all packed  
Don't you know you should never treat a girl like that?  
'Cause the next one's gonna have the hammer pulled backChorus:  
Every girl is capable of murder  
So watch out you, don't push me any further  
But you f\*ckin' hurt herEvery girl is capable of murder if you hurt her  
Watch out, you don't push me any further, any further  
You're not the only one walkin' 'round with a loaded gun  
This little girl is capable of murder, hey!  
This little girl is capable of murder 'cause you hurt her!
