

Fall of Seraphs

Mayhem

Advisory - the following lyrics contain explicit language:

I am the key of dark passion
I drink my blood, I eat my flesh
A serpent kiss I give to woman
A voyage through the vortex scapes
Serpent of Eve
Now there is an acrid taste of life
Abhorrent christendom - inside burning
Proclaim the fall of Seraphs
noli tangere me
Ad modum muscorum in maximo numero
Abysmally distorted human mortals
A serpent christ's holy smile
seven planetary demons
Serpent of Eve
