Not This Time

3LW

Not this time, not this time
Not this time, not this time
Not this time, not this time
Not this time, not this timeYou told me that my love was all good for you
But when I'm not around, there's always someone new
With all my trust and every little kiss
I can't believe you played me out like this
All my friends told me I was not your only
Guess my heart was wrong againHow can I be with someone like you?
After all of the things that you put me through
How could you lie, lookin' straight in my eyes?
Sorry baby, not this timeNot this time, not this time
Not this time, not this timeThe other night when I was out with my friends
When we were chillin' at the club when you walked in
Said you were stayin' home here you come and not alone
Tell me what the, [Incomprehensible] is goin' on
Baby what goes around always comes back around
She'll be the one to bring you downHow can I be with someone like you?
After all of the things that you put me through
How could you lie lookin' straight in my eyes?
Sorry baby, not this timeHere I am, all alone wondering where it all went wrong
Guess my love was not enough for you to stayCan't believe you did me wrong, shoulda known so now I'm gone
All the things I did for you, all the things you put me through
Tellin' me you wanna stay with me but all along you was playin' me
But all the games have gotta stop this time
It worked before but not this timeWith all my trust and every little kiss
I can't believe you played me outHow can I be with someone like you?
After all of the things that you put me through
How could you lie, lookin' straight in my eyes?
Sorry baby, not this time
