

# Somebody Like Me

Samantha Mumba

(Verse)

You sit there with your red lips stained  
Tryin so hard to explain  
How you feel, how you wanna feel and how  
Time after time you let yourself down  
The one helps grow your self-doubt  
And you're trying so hard but your light is out(Pre-Chorus)  
It's never easy to see what they see  
When you're blinded by yourself from what you used to be(Chorus)  
Why you wanna go and make love with somebody?  
Why you wanna go and make love with somebody?  
Why you wanna go and make love with somebody?  
Why you wanna go and make love with somebody like me?  
With somebody like me  
With somebody like me  
With somebody like me(Verse)

Tired eyes and you leather tights  
You've been running round in circles tryin to pick your fights  
About time you let this go  
It's been racing down your fingers through your hips and toes  
As the light dims and your dark fades  
You're struggling to find the words you're dying to say(Pre-Chorus)  
It's never easy to see what they see  
When you're blinded by yourself from what you used to be(Chorus x2)  
Why you wanna go and make love with somebody?  
Why you wanna go and make love with somebody?  
Why you wanna go and make love with somebody?  
Why you wanna go? Why you wanna go go?(Bridge x2)  
Tell me, tell me why you wanna  
Tell me, tell me how you gonna  
Tell me, tell me why you wanna(Chorus)

Why you wanna go and make love with somebody?  
Why you wanna go and make love with somebody?  
Why you wanna go and make love with somebody?  
Why you wanna go? Why you wanna go go?  
Why you wanna go and make love with somebody?  
Why you wanna go and make love with somebody?  
Why you wanna go and make love with somebody?  
Why you wanna go and make love with somebody like me?

With somebody like me  
With somebody like me  
With somebody like me  
With somebody like me  
Why you wanna go? Why you wanna go go?  
Why you wanna go? (go go)  
(go go) Why you wanna go? (go go)
