

# Trying to Remember

## Shades Apart

What's in store?  
Why did you lie to me?  
I don't know  
What did you want me to say? There's nothing wrong  
With wanting to be right  
I'm just trying to remember  
This could be the biggest lie We were faking all the while  
Step across the finest line  
Let's just give it one more try  
Who're you for?  
What do you want from me? Overflow  
This isn't how it's supposed to be  
There's something wrong  
So try to make it right  
Hit the floor We're both just lying there  
Overload, I'm so tired of this scene  
There's something wrong  
So try to make it right It's not how it's supposed to be  
There's still so much left to do  
This could be another me  
This could be another you
