10 Dead Fingers

Switched

you shake the pillar
let it overboard
and i come down
to the ground
so afraid
that i cannot be saved
let me out let me out
the safer side of me
not the way its supposed to be
but they wont go
until i cut these
10 dead fingers
theyve ruined my simple life
pulling you
pulling me
and theyre pulling me back again
you shake the floors that i walk
you make me crawl like a little doll
but i ignore
i ignore the safer side of me
not the way its supposed to be
but they wont go until
i cut these
10 dead fingers
theyve ruined my simple life
pulling you
pulling me
and theyre pulling me back again
I cut these 10 dead fingers
They'll bring me down to size
back again
pulling you
pulling me
and theyre pulling me back again
so you think you can manipulate me
all i want is to be free again
back
bring' em back
bring' em back

bring' em back
my blood spilled to the floor
and finally im alive
i cut these 10 dead fingers
theyve ruined my simple life
pulling you
pulling me
and theyre pulling me back again
I cut these 10 dead fingers
They'll bring me down to size
back again
pulling you
pulling me
and theyre pulling me back again
10 dead fingers
