

# Malaria

**DJ Mixwell**

She's malaria, she's malaria Somewhere from another time  
Asiatic death  
Yellow fever bodies writhe  
Sugar on my breath Is this the final curtain?  
I don't believe what's happening  
She hides behind a veil of tears  
Plays upon my darkest fears yeah She's malaria, she's malaria Swamp fever  
Water black as mud  
Strength fading  
Demon hold, hungry for my blood So desperately I cling to life  
Pain I know I must survive, entity  
She hides behind a veil of tears  
Plays upon my darkest fears, misery She's malaria, she's malaria Desperately I cling to life  
Pain I know I must survive, entity  
She hides behind a veil of tears  
Plays upon my darkest fears, misery She's malaria, she's malaria  
She's malaria, she's malaria
