

Dancing in Gold

The von Trapps

How many times does it take to learn
The further I hold my heart out
The harder it burns
Even though I could try to protect my soul
By turning my heart to stone
I'm better dead than alone Love doesn't make our lives easier at all
It can only make it worth the time Dancing in Gold
God knows we're caught and we're pulled
You can't sell your youth for control
Not if you want to grow old
Run and return
Freeze turn and learn how to burn
You got to fight to keep soul
When you're dancing in gold ah ah ah ah ah ah ah ah aaaaahhhh Even though it's good to be clean as snow
You'd better be dread in carmine
When the heads roll
Is it gambling with the precious few important things
While I'm dancing, still I'm trembling
I still have a home How much would you risk to find the truth
And how far would you go to know it's proof Dancing in gold
God knows we're caught and we're pulled
You can't sell your youth for control
Not if you want to grow old
Run and return
Freeze turn and learn how to burn
You got to fight to keep soul
When you're dancing in gold Dancing in gold
God knows we're caught and we're pulled
You can't sell your youth for control
You got to wait to go home
Aah aah aah
