

Love Is the Power

Michael Bolton

Tell me how long, can we go on this way

Just to be strong

We talk through the night

But never reach the other side

We fill our lives

With endless words, an aimless search

When all that we need, we hold within our hearts

When will we find, our way out of the dark

We know that

Love is the power, love is the key

Love is the reason, reason to believe

Love is the answer, when we will see

Love is the power, love is the power, we need

Look at our lives, look at this world we've made

We close our eyes, and oh the price we pay

We reach for the sky

But never get beyond our pride

Fighting like fools

This faithless game, is such a shame

When all that we need we hold within our hands

Oh when will we find the faith to understand

We know that

Love is the power, love is the key

Love is the reason, reason to believe

Love is the answer, when we will see

Love is the power, love is the power, we need

All that we need we hold within our hands

Oh when will we find the faith to understand

We know that

Love is the power, love is the key

Love is the reason, reason to believe

Love is the answer, when we will see

Love is the power, love is the power, we need
