Metal On Metal

Anvil

Metal on metal
It's what I crave
The louder the better
I'll turn in my graveMetal on metal
Ears start to bleed
Cranking it up
Fulfilling my needMetal on metal
Shakin' the place
Blows back your hair
Caves in your faceMetal on metal
Feeling the grind
Up go the hammers
A victim to findMetal on metal
Heads start to bang
Denim and leathers
Chains that clangKeep on rockin'
Keep on rockin'
To this metal tonightKeep on pounding
Keep on pounding
Join the heavy metal fightMetal on metal
Gets you so high
Excitement and action
Won't pass you byMetal on metal
The hardened breed
True to the end
A fire to feedMetal on metal
Heat starts to rise
Kickin' it out
With screams and criesMetal on metal
Never will die
Parties and concerts
Keep it aliveMetal on metal
It's the only way
To hell with tomorrow
Let's live for today
