Smile Again

LED Apple

No reason to give up, no reason to turn around, no
No matter what, it will come, I want you to know
Tell me how you feel when you're all alone
No one to say I love you and you feel your hope is gone
Try to call your best friend, but he's not there
So you wind up feelin' empty like no one cares
My brother, don't worry, the storm don't last always
For there's a [Incomprehensible] of glory
Full of mercy and grace
He'll pick you up, He'll hold your hand, He'll ease the pain
So you can smile again
He'll pick you up, He'll hold your hand, He'll ease the pain
So you can smile again, good God Almighty
Tell me how you feel, how you feel
When you?re feelin' all alone, all alone
No one to say I love you
Feel like all your hope is gone, yes, it does
Try to call your best friend, yes, you do
No one, no one is there, oh yes
Feelin' kind of empty, yeah
Feelin' like no one cares, no
My brother, don't you worry now
Your storm won't last always
There's a Man from glory, full of mercy and grace
He'll pick you up, He'll hold your hand, He'll ease the pain
So you can smile again
He'll pick you up, He'll hold your hand, He'll ease the pain
So you can smile again, and sing again
My brother, don't you worry now
Your storm won't last always, no
There's a Man from glory, full of mercy and grace
He'll pick you up, He'll hold your hand, He'll ease the pain
So you can smile again, good God Almighty
Yes, you will
When I was feelin' down, feelin' low
Yeah, He made me happy, yes
Keep your head up, smile again
Keep your head up, smile again, good God Almighty
Keep your head up, smile again

Keep your head up, smile again, good God Almighty
Keep your head up, smile again
Keep your head up, smile again, good God Almighty
Keep your head up, smile again
Keep your head up, smile again, good God Almighty
Keep your head up, smile again
Keep your head up, smile again, good God Almighty
Keep your head up, keep your head up
Keep your head up, keep your head up
Keep your head up, keep your head up
Keep your head up, keep your head up
Keep your head up, keep your head up
Keep your head up, keep your head up
Keep your head up, keep your head up
Keep your head up, smile again
