Nervous

Unida

And you should've told me
you had a nervous fuckin break down
And you should've said to me
you were going down
And I should've told you
you heart, momma, it's going down
And you should've told me
you had a nervous fuckin breakdownAnd there's a flip side to that coin
there's a flip side to your coin
well is there?
And there's a flip side to that coin
there's a flip side to your coin
well is there? Is there?And you should've told me
you had a nervus fuckin breakdown
And I should've run from you
Well I'm not turning around
And you should've said to me
you heart, momma, it's going down
And you should've told me
you had a nervous fuckin breakdownAnd there's a flip side to that coin
there's a flip side to your coin
well is there?
And there's a flip side to that coin
there's a flip side to your coin
well is there?
Is there?
