Life Is a Bitch

SynthAttack

Life is a bitch,
Life is a bitch

You're working every day
At the job that you hate
The boss is yelling bullshit,
It's allways getting late
No time left for nothing,
Your wife is getting mad
Draining your energy
Away you feel so bad

How can you overcome
This wall of shit
For every step you take
You get another hit
Life is a bitch
And it's holding you down
It's time to let it out
And go really to town

Life is a bitch...

Life is a bitch
So fuck it hard
Do it from the start, life is a bitch
Don't let it break your heart
Never all apart, life is a bitch
So fuck it hard
Do it from the start, life is a bitch
So let's party hard
Until we fall apart

The sickness in your mind
Is drilling deep
You're slowly fall apart
And you can't get no sleep
You're left alone
Since your relation separate
Nothing left to love

It all has turned to hate

How can you overcome
This wall of shit
For every step you take
You get another hit
Life is a bitch
And it's holding you down
It's time to let it out
And go really to town

Life is a bitch...

Life is a bitch
So fuck it hard
Do it from the start, life is a bitch
Don't let it break your heart
Never all apart, life is a bitch
So fuck it hard
Do it from the start, life is a bitch
So let's party hard
Until we fall apart

Life is a bitch...

Life is a bitch
So fuck it hard
Do it from the start, life is a bitch
Don't let it break your heart
Never all apart, life is a bitch
So fuck it hard
Do it from the start, life is a bitch
So let's party hard
Until we fall apart

Life is a bitch
So fuck it hard...
Life is a bitch
