Looked in Too

Together Pangea

I guess you really don't care
I guess you really don't mind
There is smoke in the air
and I look in your eyesI guess you're really not scared
You could be losing your mind
But there's still smoke in the air
and I look in your eyesI looked into I looked into (x4)I guess you really don't care
I guess you really don't mind
Just the smoke in the air
and I look in your eyesI looked into I looked into (x4)I looked into I looked into (x4)
