

# Looked in Too

## Together Pangea

I guess you really don't care  
I guess you really don't mind  
There is smoke in the air  
and I look in your eyes I guess you're really not scared  
You could be losing your mind  
But there's still smoke in the air  
and I look in your eyes I looked into I looked into (x4) I guess you really don't care  
I guess you really don't mind  
Just the smoke in the air  
and I look in your eyes I looked into I looked into (x4) I looked into I looked into (x4)
