

# Young and in Love

[Jordin Sparks](#)

Didn't ask you're opinion, what'cha talkin' bout?  
So quick to jump to conclusions, cause we're hangin' out  
There ain't no wishes, ain't no fuss  
When it's just you and me (you and me) What makes you think that you can know  
What's gonna stick, what's gonna blow  
So get em boy [Chorus]  
Let them pull at the seams  
Don't they know what it means  
To be young and in love like that  
Who are they to decide  
If it's wrong, if it's right  
To be young and in love like that  
Like that, like that  
Like that, like that  
To be young and in love If people offering answers, sounds like breaking it  
I can't remember the questions, whatever asked  
It's a free road you came down  
But you don't bother me (bother me) One of those days when we're old  
I'll stop and say I told you so  
So get em boy [Chorus] Like that, like that  
Like that, like that  
To be young and in love It don't matter what they say, too late to walk away  
Cause I need him, much too strong  
I've waited for so long to feel all the things that I feel  
So I gotta get that boy [Chorus] Like that, like that  
Like that, like that  
To be young and in love
