Judas Rising (live)

Judas Priest

White bolt of lightning
Came out of nowhere
Blinded the darkness
Created the storm

War in the heavens
Vengeance ignited
Torment and tempest
Attacks like a swarm

Forged out of flame
From chaos to destiny
Bringer of pain
Forever undying
Judas is rising

Eternal betrayer
Ice cold and evil
Taking no prisoners
Dark prince of the world

Humanity trembles
Enslaving you sinners
You canÂ't beg for mercy
For none will be saved

The burden of sin
Echoes the prophecy
Ascending from hell
Forever despising
Judas is rising

Their faith is revealed
Deceivers are crying
By crucified steel
Evangelising
Judas is rising
