

# Judas Rising (live)

## Judas Priest

White bolt of lightning  
Came out of nowhere  
Blinded the darkness  
Created the storm

War in the heavens  
Vengeance ignited  
Torment and tempest  
Attacks like a swarm

Forged out of flame  
From chaos to destiny  
Bringer of pain  
Forever undying  
Judas is rising

Eternal betrayer  
Ice cold and evil  
Taking no prisoners  
Dark prince of the world

Humanity trembles  
Enslaving you sinners  
You can't beg for mercy  
For none will be saved

The burden of sin  
Echoes the prophecy  
Ascending from hell  
Forever despising  
Judas is rising

Their faith is revealed  
Deceivers are crying  
By crucified steel  
Evangelising  
Judas is rising
