

# She Looks to Me

## Red Hot Chili Peppers

Looks to me like heaven sent  
No lullaby kid, no five percent  
Anyway you want to cut that cake  
She's dyin' from the likes of abandonment  
Lost in the valley without my horses  
She needs somebody to hold  
It looked to me like heaven  
Sent this for your roughest night  
She looks to me, she looked to me, all right  
Who's going to take you home  
And hold you when things aren't so bright  
She looks to me, she looked to me, all right  
It's a long walk down those tracks  
It's a dirty walk in, it's a dirty walk back  
Gonna learn a way too much  
Shootin' dope in the back of a Cadillac Jack  
Slow down the road to my back 40  
She needs somebody to hold  
It looked to me like heaven  
Sent this for your roughest night  
She looks to me, she looks to me, all right  
Who's going to take you home  
And hold you when things aren't so bright  
She looks to me, she looks to me, all right  
Down in the South seas  
Give me your mouth please  
Resuscitation  
Is the way I found these  
I give you major  
You give me minor  
Don't fade away  
Like an ocean liner, now  
Lost in the valley without my horses  
No one can tell me what my remorse is  
God made this lady that stands before me  
She needs somebody to hold  
She shows the world up with a smile  
And then she throws the fight  
She looks to me, she looks to me, all right  
Down on the bathroom floor  
She's searching for another light  
She looks to me, she looks to me, all right  
It looks to me like heaven  
Sent this for your roughest night  
She looks to me, she looks to me, all right  
Who's going to take you home  
And hold you when things aren't so bright  
She looks to me, she looks to me
