Good Times

Anita Cochran

Get the keys to the car, fill it up with gas
Go down to the bank and pull out a little cash
Forget about the yard, forget about the trash
Let's get a little sun'Cause it's 5 o'clock and the whistle blows
I've been working overtime eight days in a row
Grab a change of clothes and get ready, let's go
And have a little funGood times, good times it's a good time to let the good times roll
Mile after mile, smile after smile headin' down the line
Hey we're having good times, good timesLet's not worry about things gone bad
'Cause life's too good to live so sad
Worn down, torn down, tired and trapped
Hey forget about thatGood times, good times it's a good time to let the good times roll
Mile after mile, smile after smile headin' down the line
Hey we're having good times, good timesRoll down the windows baby, feel the wind blow
Turn up the radio, turn up the radio, hey turn up the radioGood times, good times it's a good time to let the good times roll
Mile after mile, smile after smile headin' down the line
Hey we're having good times, good times
