

Brodie Johnson Weekend

Voodoo Glow Skulls

Hey it's time to dance with danger
Hey put on your best wrinkled suit
It's time to set the night on fire
The night is looking young and so am I Hey we're going to defy the law
Hey going to paint this time tonight
I've got all the special motions
That make all the willing pretty ladies wild No, won't take that for an answer
No, I can't wait all night for you Hey out on the crowded dance floor
Hey I'm always on cloud 9
No one wants to step to this muchacho
Some call me the bastard's son Hey let's crash my big black caddy
Hey let's drive through your backyard
I've got the pedal to the medal
Don't give me attitude 'cuz I was born to be wild
