

No Limit (Disintegration Mix)

Front Line Assembly

Back against the wall now
Well, I don't need to stand for any of this shit
Back against the wall now
Back against the wall nowCancel the time
Stop the disturbance
Turn out the lights
I don't want to seeShut down the mind
End all its functions
Destroy all the rules
Block all emotionsStop interference
Just be cold
Leave me alone
I don't want itFind someone else
To be your slave
It's too late
The damage is doneWell, I don't need to stand for any of this shit
Hands against the wall nowThe damage is done
The damage is done
The damage is doneThe damage is done
The damage is done
The damage is doneThe damage is done
The damage is done
The damage is doneThrow out your thoughts
Start again
Malicious redemption
The options are fewBlow up the world
And start again
Move through the night
Move through the night
With caution
The damage is doneHands against the wall now
The damage is done
The damage is done
([Incomprehensible])
The damage is done
The damage is doneThe damage is done
The damage is done
The damage is doneThe damage is done
The damage is done

The damage is done
The damage is done Back against the wall now
The damage is done
The damage is done
The damage is done
