

I Fought Piranhas

The White Stripes

Well I hold the rope
And I hold the sail
And I kept my papers
To keep from land in jail
And I fought piranhas
And I fought the cold
There was no one with me
And I was all alone
Well it's easter mornin' now
And there's no one around
So i unroll the cement
And walk into the town
There was no one with me
I was all alone
And I fought piranhas
And I fought the cold
Well you know what it's like
I don't gotta tell you
Who puts up a fight
Walking out of hell now
When you fought piranhas
And you fought the cold
There's nobody with you
Yes you're all alone
