

# Lights Out

## Cover Your Tracks

Get up, get up  
We got lives at stake  
You won't regret it  
Every minutes got a lot to take  
Another moments bout to pass  
Get up and find yourself awake I shouldn't have to ask  
For rhyme or reason  
You're married to the past  
You cheat the meaning Lights out  
Why don't you close the coffin  
Lights out  
Why don't you lie inside  
Paralyzed by your own reflection  
Lights out  
Already dead inside Get up, get up  
We got lives at stake  
You won't regret it  
Every minutes got a lot to take Wasted youth, wasted time  
Floating through a shallow dose of wasted life  
Don't waste my time  
No more calling home  
Yeah, you can beg but you're on your own  
No more calling home  
Yeah, you can beg but you're on your own Lights out  
Why don't you close the coffin  
Lights out  
Why don't you lie inside  
Paralyzed by your own reflection  
Lights out  
Already dead inside Find your grave so you can lie inside  
Lie inside  
Find your grave so you can die inside  
Die inside  
Find your grave so you can lie inside Lights out  
Why don't you close the coffin  
Lights out  
Why don't you lie inside  
Paralyzed by your own reflection  
Lights out

Already dead inside
