Already Free

The Derek Trucks Band

I am my father's child
Am my father's child
Train that's bound for nowhere
Runnin' free and wild
I am my father's child
The world has passed me by
World has passed me by
See the comin' shadow
I aint got time to cry
The world has passed me by

The world has passed me, passed me by
I am already free
Am already free
Goin be like Christmas
When the devil come for me
Am already free
I'm already, already free
I'm already, already free
