

# It's Not (Live from the BBC)

[Aimee Mann](#)

I keep going round and round on the same old circuit  
A wire travels underground to a vacant lot  
And shrinks the picture down to a tiny dot  
Where something I can't see interrupts the current  
And from behind the screen it can look so perfect  
I keep waiting for a change but I don't know what  
But it's not So here I'm sitting in my car at  
the same old stoplight And all I have to do is to press the pedal  
So red turns into green turning into yellow But  
I'm just frozen here on the same old spot  
But I'm not No, I'm not The moment you try, you kiss it goodbye  
People are tricky, you can't afford to show Anything risky anything they don't know  
And let me fall into the dream of the astronaut  
Where I get lost in space that goes on forever  
So baby kiss me like a drug like a respirator  
And you make all the rest just an afterthought  
And I believe it's you who could make it better  
No, it's not But it's not No, it's not
