Money Tree

Merle Haggard & The Strangers

Silver and gold made you say goodbye
One day it may make you wanna cry
When you're alone with a heart that's blue
Who will you take your heartaches tooLove can't grow on a money tree not the kind you had with me
Some day when you're older a wiser girl you'll be
Then you'll know that love can't grow on a money tree
I don't blame you for all my painA young girl like you needs time to dream
You're happy now but how long will it last
One day you'll be just a girl with the past
Love can't grow on a money tree
