

You Gotta Believe

Mary J. Blige

Mmm, mmm
Oh, you must believe, you must believe
Hey yeah You gotta believe
You gotta believe in me, baby
That I won't never hurt you You gotta believe
You gotta believe in me, baby
That I won't never hurt you I told you once before
That I love you and I need you
But let me tell you once again
You were my closest friend I'll never leave you
So hold me tight all through the night
Caress me with your tender care
Anytime or anywhere Anytime, anywhere
I will go with you anywhere
Won't you trust in me, baby
Stay with me Till death do us part
You'll always be right in my heart
Won't you please stay with me
Baby, please believe in me You gotta believe
You gotta believe in me, baby
That I won't never hurt you You gotta believe
You gotta believe in me, baby
That Mary, Mary, I hear you loud and clear Why don't you believe in me?
Tell me why you don't see
That you can put your trust in me
And let me lead the way Please baby, take my hand
I don't need another man
But if you wanna hold on tight
You can not be afraid You gotta believe
You gotta believe in me, baby
That I won't never hurt you You gotta believe
You gotta believe in me, baby
That I won't never hurt you Take me boy by my hand
Let me make you understand
That I can never let you down
Baby, just believe in me Take me boy by my hand
Let me make you understand
That I can never let you down
Baby, just believe in me You gotta believe

You gotta believe in me, baby
That I won't never hurt you You gotta believe
You gotta believe in me, baby
That I won't never hurt you You gotta believe
You gotta believe in me, baby
That I won't never hurt you You gotta believe
You gotta believe in me, baby
That I won't never hurt you You gotta believe
You gotta believe in me, baby
That I won't never hurt you
